## Projects

### Family Medical Care

- Developed a comprehensive web application for efficient medication management and streamlined order processing for a medical clinic. (<https://fmc-medi.vercel.app/>)

**Technologies:** - NextJS, NodeJS, MongoDB, Tailwind

### Plant Nexus

- A groundbreaking mobile platform fostering a thriving gardening community while revolutionizing plant transactions for a greener, more sustainable world.

**Technologies:** - Kotlin, MongoddbRealm, WebXR, API integration

### Virtual Dressing Room

- Using AR, VR, and AI to improve online shopping by addressing size uncertainties, providing personalized fittings, and engaging users with an AI chatbot.

**Technologies:** - ReactJs, NodeJs, ThreeJs, WebXR, MongoDB, API integration

### Procurement for Construction Industry

- Crafting a procurement system for construction, solving industry-wide purchasing challenges with an integrated software solution for efficient purchase management.

**Technologies:** - Kotlin, ReactJs, NodeJs, MongoddbRealm, Junit

## Skill Highlights

- Leadership & Management (Managed a team of individuals for MAD,SPM,CSSE and UEE Modules)
- Teamwork (Participated in Hackathons and Organized DSSC club events as a team)
- Time Management
- Innovative
- Public Speaking

## Certifications

- Google Play Store Listing Certificate from Google for Developers.
- MongoDB for SQL Professionals Certification.
- Introduction to programming in Kotlin from Google for Developers.
- Firebase and Flutter from Google for Developers.
- AI-Powered Performance Ads Certification from Google Skillshop.
- Google Ads Display Certification from Google Skillshop.
- Certificate in Java at Udemy.
- Successfully completed Basic Web development course at UKI.
- The Complete ReactJs Course - Basics to Advanced [2023] at Udemy.
- Scrum Fundamentals for Scrum Master and Agile Projects at Udemy.
- Object Oriented Programming - Basics to Advance (Java OOP) at Udemy.
- Successfully completed Complete Ethical hacking Course at Udemy.
